Partial List of Client Success Stories – Government/Public

U.S. Coast Guard (Topeka, KS) – Documentation Project

Saicon Consultants, Inc. assisted the Coast Guard in creating custom user input forms to create Word templates. After gathering specific user requirements, a variety of custom features were programmed including pre-populated drop down fields, custom help tips, forced formatting, hiding/showing of text, fields generated based on user selected data and a automated printing options. These features will enhance quality, reduce training time, speed production and standardize functions. The software engineer worked closely with the client during all phases of the project to provide high quality results and address issues in a timely manner.

Coppin State University, MD – ERP – PeopleSoft Upgrade

Saicon Consultants, Inc. assisted on an upgrade from PeopleSoft v.8.4 to v.8.9 on HR, Campus Solutions and Financials (in SQL Server and Windows XP environment). Primary focus was on PeopleSoft Financials and Student Financials applications. Bursars and Accounts Payable office were the users. Assisted in applying fixes, creating new reports, AE's and giving the need analysis for the Student Financials fit/gap details. I-Strategy was involved for financial reporting purpose and extensive data marts were built based on this. Implemented third party payment plans (Sally Mae) for the Student Financial Offices.

University of Maryland, MD – ERP – PeopleSoft Maintenance

Saicon Consultants, Inc. assisted in the functional design and development of fixes of PeopleSoft Financials and Student Administration v.8.9 delivered processes (in Oracle and Windows XP environment). Responsible for design and development of reports in Financial Aid and some fixes in GL. Customized the calculation of eligibility of Pell Grants Award to GSA summer Students based on COA. Involved in the FA Accounting line rectification. DRN number rectification on the Cashiering GL lines generation. Reports development involved Perkins Entrance and Exit loan reporting procedure with setup done on item types for any run control page and used FTP option in reporting.

Claremont Graduate University, CA – ERP – PeopleSoft Maintenance

Saicon Consultants, Inc. assisted fixing reports and configuration issues with the application server after tools upgrade (in PeopleSoft v.8.1, SQL Server and Windows environment). Fixed issues in Mass Change, develop new SQR reports, debug, develop AE processes and performed set up in Academic Advisement related to academic requirement groups on grading schemes, grading basis, grade category and grade basis exception rule. Setup and configured the Academic Advisement module based on different grading basis, degree requirement and customization of academic program with non-degree requirement. Developed new SQR reports on degree audit report based on student, student admission compare for different terms, checklist report for evaluation on different schools and communication process similar to letter generation for students.
